ABSTRACT

Especially with the COVID-19 outbreak which has affected the world, activities require intense contact have carried to be held online. Biddibs application carries the auctions, which used to be attended by a small group require intense contact, to the internet and public. Also, Biddibs helps auction items to be sold in a more crowded environment rather than a small community. Biddibs, strives to look after the transaction reliability of the auctioneer and bidders in the auctions. Also, our application allows users to watch auctions with different roles

Who Can Use?

Collectors Who Want To Be Informed About The Newly Opened Auctions, Collectors Who Want To Participate In Auctions , Users Who Want To Increase Their Collection Safely, Users Who Want To Sell Their Unwanted Items Will Be Very Comfortable With This Application.
